22 February 1979

MEMORANDUM FOR: Deputy Director of Central Intelligence
FROM: Director of Central Intelligence
SUBJECT: Inspection Report, ORPA ☐

25X1

1. I have reviewed the recommendations of the Inspector General's report on ORPA and take the following actions:

a. Recommendation A-1: The replacement of the NID with a more useful daily publication has already been achieved. In line with your views that we should do away with this altogether, I recommend that you, Bob, and I keep our eye on the new NID and judge its relative cost and usefulness after about six months of publication.

b. Recommendation A-2: I non-concur that we should have a leader of the NIOs.

c. Recommendation A-3: I request you do everything possible to find more space for ORPA and other key analytic sections of NFAC. I know you are working hard on this already. Among other things, I think we must ensure that there are commensurate reductions in space within DDO as we complete the Fiscal Year 1978 and 1979 personnel reductions.

d. The Recommendations in Part B are left for Bob Bowie to handle. I recommend that you and I sit down with him after he has had a chance to take action on them and ensure that you and I are in position to support him on them. ☐
